

HOW TO WORK WITH A44 COMPANY

Engagement

Work begins upon written agreement of scope and acceptance of A44 Company's Terms of Engagement. Clear deliverables, timelines and communication expectations are defined before work starts.

Communication

Primary communication is via email or Teams/Zoom. Standard response time is within 24 hours, with same-day responses for urgent issues.

Working Style

A44 Company operates with autonomy and minimal oversight. Projects benefit from structured analysis and AI-accelerated workflows, ensuring rapid turnaround and consistent documentation.

Invoicing & Billing

Invoices are issued weekly and due within 14 days. Engineering and Digital workloads are invoiced separately. Minimum billing increment: 1 hour per working session.

On-Site Work & Travel

Remote work: No expenses. On-site or international work requires the client to arrange and pay for travel and accommodation, unless otherwise agreed.

Deliverables

Typical deliverables include: IQAN logic updates, traction/BMS strategy, HMI builds, CAN diagnostics, full-stack tools, and AI-assisted documentation. Provided in agreed formats.

Completion & Support

At completion of the agreed scope, follow-on support can be booked as hourly sessions, monthly retainers or additional project-based engagements.
